

# Fear And Time

Melissa Ferrick

Well you don't know  
What it is you're doing  
And you don't know  
What it is you're losing  
So you just lay around  
With 1/2 your heart on the ground  
Cuz you don't know  
The meaning of the words you're using

Yeah that's it  
Wrap yourself up in yourself  
Yeah that's it  
Dive yourself into yourself  
And what are you going to find?  
Besides fear and time

And he's been trying  
Yeah to give you room  
And he's been trying  
To listen to you  
But all he hears from you is cruel  
And for 7 years  
He gave it all up for you  
7 years and now you don't  
Know what YOU want anymore

Yeah that's it  
Wrap yourself up in yourself  
Yeah that's it darlin dive yourself into yourself  
And what are you going to find?  
Yeah besides fear and time

So you're going to softly leave  
As he quietly entered  
And use punch words  
Onto your breath like forever  
And he is gone  
His heart's a burned up clover  
And he is disabled  
Just like the boat that brought him over

So yeah that's it  
Just pretend that he doesn't exist  
And what are you going to find?  
Fear and time
