## I Am Done

## **Melissa Ferrick**

Stop me from feeling Stop me from feeling Stop me from feeling the fear Of falling in love Take me from this place From this awful space and shake me I want you to shake me 'Til I'm done I am done Falling in love Yeah falling in line I am waiting on the staircase Waiting for my time Waiting for my time I am done What I need is completeness What I need is neatness I need a messy kind of make it up As you go along I need a silence full of nothing I need to love Without trying Without trying to be loving I am done Falling in love Yeah falling in line I am waiting on the staircase Waiting for my time Waiting for my time I am done I am done I am done Dig a doo bop bop ... I am done Falling in love Yeah falling in line I am waiting on the staircase Waiting for my time Waiting for my time I am done I am done I am done
