

I Still Love You

Melissa Ferrick

Yeah I thought this was it
True love had arrived
So I fell in
But what a surprise
And I bought you a ring
And I asked you to wear it
So when I found it on the bathroom sink
I shoulda known I was in for it

How do I release this?
And how do I let you go?
How do I mend my heart when I feel so low?
And how do I talk to you without crying?
And how do I let you go when I still love you?

I still love you

So I don't know if I can be just your friend
Damn you for not trying
And fuck you for standing there smiling
I know what it's like to not be able to feel
And I know what it's like, yeah
To just kiss someone and make them fall in love with
you
And then you walk away
To just make somebody come a little closer
So you can push them away...

How do I release this?
And how do I let you go?
How do I mend my heart when I feel so low?
And how do I talk to you without crying?
And how do I let you go when I still love you?

I still love you...
