

## To Feel Real

Melissa Ferrick

Ya you got what you wanted  
Now you won't leave me alone  
You call me up to come over  
'Cause you're afraid to be alone

'N so you sit in this castle  
Ya that someone else made  
'N I'm just staring at you  
While you tell me you know what it takes

Ya to really work hard  
And to pay your dues  
'N I'm just laughin' at you  
Knowing you've been waiting your  
Whole damn life  
For someone to take care of you

We both know  
You're coming apart at the seams  
Please  
Won't you spare me your lines  
'Cause it's me here  
And I know a little something about  
What it feels like  
Ya to not feel real

Cause you can't bullsh\*\* a bullsh\*\*ter  
Hey I have known you for a while  
I've seen you in plastic house shoes  
'N I have held your hand walking  
Down K-Mart aisles

I know your soul is beautiful  
So why don't you just let it out  
What's the worst that could happen  
The real you could come out

We both know  
You're coming apart at the seams  
Please  
Won't you spare me your lines  
'Cause it's me here  
And I know a little something about  
What it feels like  
Ya to not feel real
