

To Feel Real

Melissa Ferrick

Ya you got what you wanted
Now you won't leave me alone
You call me up to come over
'Cause you're afraid to be alone

'N so you sit in this castle
Ya that someone else made
'N I'm just staring at you
While you tell me you know what it takes

Ya to really work hard
And to pay your dues
'N I'm just laughin' at you
Knowing you've been waiting your
Whole damn life
For someone to take care of you

We both know
You're coming apart at the seams
Please
Won't you spare me your lines
'Cause it's me here
And I know a little something about
What it feels like
Ya to not feel real

Cause you can't bullsh** a bullsh**ter
Hey I have known you for a while
I've seen you in plastic house shoes
'N I have held your hand walking
Down K-Mart aisles

I know your soul is beautiful
So why don't you just let it out
What's the worst that could happen
The real you could come out

We both know
You're coming apart at the seams
Please
Won't you spare me your lines
'Cause it's me here
And I know a little something about
What it feels like
Ya to not feel real
