

You

Melissa Ferrick

Who else would listen
Listen so hard
To hear when I'm scared
And this love so strong
You, you have stayed
You have found a way in to me

Who else could trust
The trust you've abandoned
And me with this desire
That has known no home
Yeah you, you have stayed
You have found a way in to me

It can't be easy being you
Always behind the camera
With eyes that blue
And I know your age

Don't match your bones
And I know how small you get
When I leave home
Always wondering where I am
Who I'm with and if I'm gonna call you

You have stayed
You have found the way to me
You have found the way
So I asked you to come and you just came
I asked you to understand and you smiled and said ok
I asked if you liked the road
And you said, you said I love you
I love you
You stayed
