

## Lights Of Dawn

Melissa Manchester

Boats rocking slow on the water  
Wheat fields just wave goodbye  
Pictures to you of my roaming alone at night  
Oh, what a surprise  
Even I look on to see the lights of dawn

Daylight so bright it comes easy  
To rest a weary soul  
When holding on gets you weary, just let it go  
What a surprise  
Even I look on to see the lights of dawn

Sometimes you just believe  
That broken hearts will mend  
In matters of the heart  
You know time is the oldest friend

Love comes when no one is looking  
And brings you home to stay  
All of my life  
I've been longing to feel this way  
Oh, what a surprise  
You and I are gone to see the lights of dawn
