

Driving Blind

Melissa O'Neil

You held me up when I was down
Said everythig without a sound
Yeah, you're beautiful
Now you fill me up like a ghost
When you're far away, you're always close
Our chain is unbreakable
Whatever happens, wherever I go
I want you to know

[Chorus:]

That I'm driving blind
And I'm half-alive
Spinning around
When you're not here my feet don't touch the ground
Day and night
What's left is not right
I'm upside down
Losing you is turning me inside, turning me inside out

And all the words I might have said
Got twisted up instead and I
I wish you were here tonight
It feels so cold inside this pace
So alone, surrounded by your space
I'm empty now
Whatever happens wherever I go
I want you to know

[Chorus:]

That I'm driving blind
And I'm half-alive
Spinning around
When you're not here my feet don't touch the ground
Day and night
What's left is not right
I'm upside down
Losing you is turning me inside, turning me inside out

If you could see me now
Would you save me
But I crash to the ground
Can you hear me?

[Chorus:]

That I'm driving blind
And I'm half-alive
Spinning around
When you're not here my feet don't touch the ground
Day and night
What's left is not right
I'm upside down
Losing you is turning me inside, turning me inside out

Turning me inside, turning me inside out
Turning me inside out
