

# Forget About It

Melissa O'Neil

Selective memory conveniently drops by  
When you're up in the club and some girls caught your eye  
What, you don't think I hear rumors?  
My friends don't have eyes?

I know your mind's like a computer  
But you turn it off sometimes  
I wonder what you're doing to me  
What you're doing, boy  
I remember

[Chorus:]  
Don't play dumb  
Cause I know what you're thinking  
Forget about it  
Back it up  
Cause you now that I  
Won't forgive you, won't forget the  
Damage done  
And I won't take you back  
Forget about it

You remember science books  
The French you took last year  
Every single sports statistic but you still don't get it, dear  
I wonder are you really with me?  
Are you really, boy?  
Just remember

[Chorus:]  
Don't play dumb  
Cause I know what you're thinking  
Forget about it  
Back it up  
Cause you now that I  
Won't forgive you, won't forget the  
Damage done  
And I won't take you back  
Forget about it

Boy, I know this one thing  
You ain't forgetting nothing

[Chorus:]  
Don't play dumb  
Cause I know what you're thinking  
Forget about it  
Back it up  
Cause you now that I  
Won't forgive you, won't forget the  
Damage done  
And I won't take you back  
Forget about it

Don't you forget about it  
Forget about it
