

I bite my lip too much but it's okay  
Cause I had you once  
You disappeared on me but I'm not angry  
I miss you  
I miss you  
I take too many pills but it's okay  
Cause I had you once  
One day I won't wake up  
Well I'll be happy  
You'll miss me  
You'll miss me

Nothing left to  
Complain about  
No more drinking  
No more going out  
No more violence  
No more bravery  
No more intercourse  
No more easy  
Just a hand shake  
From me to you  
Scaly skin disease  
Has got inside of you  
No more intercourse  
No more easy  
No more easy
