

## Logged Hours

Mellowdrone

I get to taste somebody else for once in my life  
Red as the sun about to melt over my side  
We're all just wishing something fantastic maybe could happen  
For once in my life

We logged hours away  
We tried out lovers instead

Hits to the face  
Leaves him unfazed  
Don't mess with this guy

It's bright and loud  
We're union proud  
Let's just pay him off

I'm just wishing something fantastic maybe could happen  
For once in my life  
We logged our hours away  
We tried our lovers instead

We logged our hours away  
We tried our lovers instead

On and on we go  
Just like a bluebird through a window  
On and on we go  
Just like a bluebird through a window of ours
