Mellowdrone

Please please please don't let us down  
It's your turn to take it in the mouth  
I can see it  
You're not angry  
What's the difference?  
It's all been done  
I'll never sound like him  
I'll never sound like him

So soon for me  
No, I can't believe it more than you

Another photograph for me  
It's what I need to get me by today  
I once was lost but now it's found  
So I figure my head's once touched the ground  
So nicely blind, so nicely blind for me

So soon for me  
No, I can't believe it more than you
