

I don't skate enough so why I got these vans on my feet  
They maneuver like manure, caravans on my feet  
Intruder come in and shoot you going HAM is my beat  
Haters clap it out I cut em' by their hands and their feet  
Cooler than Coleman Coolers getting higher then Luna's  
I Jiffy Lube ya... Bitch up gave her a tuner  
I'm cartoon'd up, silly with the next scene  
Sipping promethazine... which is my best lean  
Nigga ya best lean, is to lean back  
And watch us blow green sacks on screen flats  
Ok yo I get away like OJ yo  
Fade away flow, oh, OJ Mayo

I'm Selfish I take everything  
I'm creative I make everything  
I switch it up the shits disgusting fuck disgusting  
And Robitussin, I'm the bacteria  
Virus, hidden infected like I did

Mary had a little lamb  
Tyler had a couple wolves  
Oval had a couple edges  
Push me till the trigger pulled  
Not ridiculous, I'm fucking incredible  
I'm doper than a blue magic tablet, inedible  
Peter pretty Bitch I popped her pussy, til my pickle split  
Kitty juice on pocket slick  
Button-ups is cheetah prints  
I'm a fucking animal  
It's obvious I see the shit  
You haul wack shit; it's obvious you need a lift  
Spitting like a loose tooth  
Booth full of poofcorn  
Satan meats and unicorn  
With some extra two horns  
Thrusts say El-Wolf logo, comprende  
Supreme shit was good if you're wondering how my day went

I'm Selfish I take everything  
I'm creative I make everything  
I switch it up the shits disgusting fuck disgusting  
And Robitussin, I'm the bacteria  
Virus, hidden infected like I did
