

## All That I Need Is Love

Melody Gardot

Boys like to think they can have it all  
Well they don't know they're still so small  
All that they see is life is opportunity  
Guys like to think they'll get any girl  
That just one look, one quick twirl  
That these acts alone will buy him a way into my home  
No well they don't know, no they don't know  
All that I'm dreaming of  
They don't know you know that they don't know  
That all that I need is love  
So much of these times have been physical  
Well all the love now where'd it go?  
Could it be my words are all together totally absurd  
All of the men I know laugh at me  
They don't listen, they can't see  
I'm falling apart 'cause no one will acknowledge my heart  
No they don't know, no they don't know  
All that I'm dreaming of  
They don't know, you know that they don't know  
That all that I need is love  
So Ill take my thoughts and just walk away  
Well I've said all that I can say  
But I'm still dreaming of  
The day that I will find my love  
The day that I will find my love  
The day I will find my love
