

Same To You

Melody Gardot

What you gonna' get for all you got
when you treat the one you love like they are not
Who you gonna call while you're on your own
you built the bed you burned right within your home

You had somebody who loved you
what did you do
you had somebody who loved you
what d'ya put them through now honey
You left somebody who loved you
Now they gonna do the same to you
Lord, they gonna do the same to you
(the same to you...)

What you gonna get while you're moving on
to some other kind of thrill but the thrill is gone
say you gonna be fine while you're on you're own
you left the one you love right there alone

You had somebody who loved you
what did you do
you had somebody who loved you
what d'ya put them through now honey
You left somebody who loved you
Now they gonna do the same to you
Lord, they gonna do the same to you
(the same to you...)
