

Lipstick & Guilt

Melody Thornton

Bruised knees and scars on his schimbalades baby
Lipstick and guilt written on your face baby
See everybody knows how you get down, down
Everybody know how you get around baby

Hail, hail, hail mary
Hail mary for the woman that she was, yeah
And god, god, god willing
You won't go down for the sin that you does

Cause if you make it out alive
Don't wanna be around to see your demise
The industry that made you up alive
Alright, alright
And there's no church in the wild

Will be a sad day for you baby when the music dies
You got business left, baby not my mind
What are your tricks turn, no tricks that hard
I might feel for you but I won't let down my guard

Hail, hail, hail mary
Hail mary for the woman that she was, yeah
And god, god, god willing
You won't go down for the sin that you does

Cause if you make it out alive
Don't wanna be around to see your demise
The industry that made you up alive
Alright, alright
And there's no church in the wild

Hail, hail, hail mary
And god, god, god willing

Hail, hail, hail mary
Hail mary for the woman that she was, yeah
And god, god, god willing
You won't go down for the sin that you does

Cause if you make it out alive baby
If you make it out alive
Don't wanna be around to see your demise
The industry that made you up alive
Alright, alright
And there's no church in the wild
