

I'll Finish You Off

Melvins

I'm dying and surely hanging staring
Stay here - the married would be wise
Let's make a real justice and hollow
Still be the married that won't be wise
Stay here

Swinged wife with a goal to do a right shoot
There's no time for rating - don't bring me down
Each blames at it seems so easily on the eyes
There's no line and the reason is some ghost white like a
pill
Swinged wife in time
To the tune of a man with the sadness in heart

People below - you must be virgin
So there we stay
It took me there - detail you've made
That's your mistake
Wake me today - might be tomorrow
By your mistake
Wake me today - might be tomorrow
By your mistake
