

# The Mechanical Bride

Melvins

We are undone  
And all I could see  
They listen to the world  
They live upon the earth

Mother made man  
And you're so crazy  
And they would say we're sane  
Kneel beside the blood

We are undone  
Somewhere no one  
As soon as it was born  
Did love of where he stood

No lamb will live  
And underrate this  
We're staring at the sun  
As many as I love

No water and a lie  
Covered it over  
No power in the house  
And with it, they do harm

I can believe  
That you're so crazy  
And welcome to the end  
You wish you were alone
