

# The Savage Hippy

Melvins

(You'rea fucking here  
Right here with the stain  
Secret cost for you and I  
You have the wheel)

Behind my witch I watch your nightmares  
And all that I spy is reaching through my lonely  
My sin has made now  
I smell something nasty  
I'll start in the begining,  
I stole all that I'll be

(What made you come here?  
We broke it all  
Give it up  
What meaning makes you so cold  
Nothing, not at all)

Behind my witch I watch your nightmares  
And all that I spy is reaching to me  
My sin has made now  
I smell something nasty  
I'll start at the beginning  
I stole all that I'll be
