

## Tipping the Lion

Melvins

Follow lead, point to my head  
We got Dresden, solid dead  
I ain't gonna stand, leaking from my hand  
Don't like the front of me on a mand

Be still the messagely  
Distending a modern tale  
By phone line  
Might have seen  
On read by rhyme

The violence strike and spare  
Seems fortified down square  
What is the quality reaching low for side  
My tears intendedly bonified

You still motor high  
Reach sending a modern tease  
Right phone line  
High voice tone  
Forty lee and four why
