

## We We

Melvins

On an on you asked me for the vision  
We got none but violence for the soul  
He got me and I got what you're after  
Half the time it's only four years old  
And all this time it glistens for the back door  
And I got time to lose the tells me what  
Loading in the mouth within the forward  
Did you tell his heart is at his end
