

Divinity

Memphis May Fire

It's three o'clock in the morning,
You lie awake with a heavy heart.
You're thinking, "What is the meaning?
Was I a waste? A mistake from the start?"

You just can't seem to remember
The last time anyone seemed to care.
And all passion seems to wither,
When it seems you have no purpose here.

But you hold the power to be
The living breathing purpose you were made to be.
It's only takes one spark
To start an everlasting fire in your heart!

Destiny is different than a dream.
Despite our failures and our shortcomings,
We all have divine purpose to be,
Nothing short of a miracle story.

You hold the power to be
The living breathing purpose you were made to be.
It's only takes one small spark
To start an everlasting fire in your heart.
To start an everlasting fire in your heart.

There is a plan and you are an important part!

There is relief in the coming days,
Even if you can't see it now.
When you look back on the difference that you made
It will erase every second of doubt!

Destiny is different than a dream.
Despite our failures and our shortcomings,
We all have divine purpose to be,
Nothing short of a miracle story.

Destiny is different than a dream.
Despite our failures and our shortcomings,
We all have divine purpose to be,
Nothing short of a miracle story.

I pray for clarity, for those who are questioning it all (questioning it all
).
I pray they'll hear the answers when they call.
You are special, you are loved! A perfect reflection of heaven above.
God makes no mistakes, you are a miracle story!

A miracle story!
God makes no mistakes, you are a miracle story!
God makes no mistakes, you are a miracle story!
God makes no mistakes, you are a miracle story!

I pray for clarity, for those who are questioning it all (questioning it all
).
I pray they'll hear the answers when they call.

God makes no mistakes, you are a miracle story!
God makes no mistakes, you are a miracle story!

I pray for clarity, for those who are questioning it all.
I pray they'll hear the answers when they call...
