Baby Doll

Memphis Slim

What's wrong, baby doll We can't get along What's wrong, baby doll We can't get along We don't have fun together Now baby, tell me what's wrong Have your mind made up Before you walk out that door Have your mind made up Before you walk out that door Because one woman, one chance You don't get back no more I been good to you As I intend to be I been good to you As I intend to be Now it seem like, baby doll You tryin' to run out on me
