

## Close To The Sun

Men Without Hats

By the light of the moon I gazed at your face  
It was the middle of June or maybe in may  
I looked at you and you looked away  
Like in a flower in bloom on a cold summer day

By the light of the moon I looked in your eyes  
Not a moment too soon did I realize  
The world is in tune it tells you no lies  
Like a flower in bloom reaching up to the skies

Getting close to the sun  
Close to the sun

Say goodbye this is your time to fly  
Can't find the reason why you should not go  
This is your time to fly go spread your wings on high  
But make sure you don't fly too close to the sun  
Close to the sun

On a cold summer day you said your goodbyes  
And you walked through that door for the very last time  
You turned as you left and you whispered to me  
Always will we love and always will we be

Close to the sun  
Close to the sun

Say goodbye this is your time to fly  
Can't find the reason why you should not go  
This is your time to fly go spread your wings on high  
But make sure you don't fly too close to the sun

Say goodbye this is your time to fly  
Can't find the reason why you should not go  
This is your time to fly go spread your wings on high  
But make sure you don't fly too close to the sun

Close to the sun  
Close to the sun  
Close to the sun  
Close to the sun
