

Roses

Men Without Hats

When my time is done
Cover me in roses
When my time is up
Cover me in roses
Cover me

And when you cover me in roses
Just remember you're having fun
And some will say it's superstitious
You can tell them it's only love

All the people stared in wonder
As the rings began
Tell them it's only love

When my time is up
Cover me in roses
When my time is done
Cover me in roses
Me

After you cover me in roses
Dream me upwards into the sun
And some will say it's superficial
But we both know it's quite enough

All the people stared in wonder
As the rings began
Tell them it's only love

And as the story goes so often
It will lead nowhere
Just tell them it's only love

When my time is done
Cover me in roses
When my time is up
Cover me in roses
Cover me
