## Roses

## **Men Without Hats**

When my time is done Cover me in roses When my time is up Cover me in roses Cover me

And when you cover me in roses Just remember you're having fun And some will say it's superstitious You can tell them it's only love

All the people stared in wonder As the rings began Tell them it's only love

When my time is up Cover me in roses When my time is done Cover me in roses Me

After you cover me in roses Dream me upwards into the sun And some will say it's superficial But we both know it's quite enough

All the people stared in wonder As the rings began Tell them it's only love

And as the story goes so often It will lead nowhere Just tell them it's only love

When my time is done Cover me in roses When my time is up Cover me in roses Cover me
