

Your Beautiful Heart

Men Without Hats

Your beautiful heart, is everywhere
Is underground, is in the air
Your beautiful heart, is all around
Is left to right, is up and down
Your beautiful heart, is in control
Is in my mind, but ain't in soul
Your beautiful heart, is everywhere
It takes no joke, your not contraire
Don't think that is all been done before
Don't think that you're never gonna win this war
Don't think your world is gonna fall apart
All you need is your beautiful heart
Your beautiful heart
Your beautiful heart, it's makes me feel
So full of love, but at your kneel
Your beautiful heart, is everywhere
Is over here, is over there
Don't think that your never gonna fall in love
Don't think that the only help is from above
Don't think is never gonna be the same
Don't think that no one is gonna know your name
Don't think is all been done before
Don't think we're never gonna win this war
Don't think your world is gonna fall apart
All you need is your beautiful heart
Your beautiful heart
Don't think that you never gonna be confused
Don't think that you never feel you be in use
Don't think you never been misunderstood
Don't think you wouldn't do it if you could
Don't think is all been done before
Don't think we're never gonna win this war
Don't think your world is gonna fall apart
All you need is your beautiful heart
...your beautiful heart.
