

The Fight

Mendeed

Show me you've no regrets of what you are,
If you're here then you're still waiting,
No reason for the fear of what awaits,
If you're here then you're still waiting.

Hold onto what you are,
Rise against the world outside,
Fight for all the things you'll ever want,
Can we really live,
In a life forsaking dreams,
Consumed by fear?

Wait for nothing,
Silence fear.

Fight against til the end,
Everything you fear,
Fight against the dreamers ashes,
Burning lives.
