

Turn It Back

Menudo

Yo, I can't believe I did so wrong
Man, I wish I could turn back time

It started off, our relationship was in tact
You know that crazy kind of love, we was in that
Everywhere we go we hand in hand
If you ain't at my place, talking on Myspace
Couldn't stop us, we was in it for the long run
Had our friends and family thinking we was the one
Ain't no telling where this road will lead
You did what noone else did, showed me what love is

Now, I can't believe I let it slip away
Stupid me for thinking you were here to stay
Wish I could go back, wish I could rewind the track
Cause I would never have played that
I wish that I could

Turn it back to the days it was all good
Turn it back if I could, girl, then I would
Turn it back, you could blame me cause I would
Wish that I could just rewind
Cause I'd
Turn it back we can start off brand new
Turn it back, no more I can't stand you
Turn it back, give me one more chance to
But it's going to take time

Cause I'd take it to a quarter till you met me, I'll make it right
Turn it to a half past, let me, cause if I could
I just wanna say I'm sorry, need you in my life
Girl, I'm begging you
I wish that I could

Turn it back to the days it was all good
Turn it back if I could, girl, then I would
Turn it back, you could blame me cause I would
But, I promise I could make it, make it better this time

Woke up realizing that I couldn't live without you
Gotta hang up everytime that I'm about to
I just don't know what I should say to you
Cause I messed up so bad, baby I know that
And I see you got a couple new friends now
On your page, hoping that this ain't the end now
Tell me baby what I gotta do
To erase my mistakes, flip back to the first page

I need to stop putting you first
I seem to break fast for your reverse
Now I hear the clocks start ticking
And you got me wishing
So I

Turn it back to the days it was all good
Turn it back if I could, girl, then I would
Turn it back, you could blame me cause I would

Wish that I could just rewind
Cause I'd
Turn it back we can start off brand new
Turn it back, no more I can't stand you
Turn it back, give me one more chance to
But it's going to take time

Cause I'd take it to a quarter till you met me, I'll make it right
Turn it to a half past, let me, cause if I could
I just wanna say I'm sorry, need you in my life
Girl, I'm begging you
I wish that I could

Turn it back to the days it was all good
Turn it back if I could, girl, then I would
Turn it back, you could blame me cause I would
Girl, I promise that I could make it, make it better this time

If I could go back to the day that we met
Make it a right, turn around and left
I hear what you sayin
But I need to know that you're not playin
I know our future's on the line
And I know I'm walking on thin ice
But I refuse to let you go without a fight
I won't lose you
That's why I have to

Turn it back to the days it was all good
Turn it back if I could, girl, then I would
Turn it back, you could blame me cause I would
Wish that I could just rewind
Cause I'd
Turn it back we could start off brand new
Turn it back, no more I can't stand you
Turn it back, give me one more chance to
But it's going to take time

Cause I'd take it to a quarter till you met me, I'll make it right
Turn it to a half past, let me, cause if I could
I just wanna say I'm sorry, need you in my life
Girl, I'm begging you
I wish that I could

Turn it back to the days it was all good
Turn it back if I could, girl, then I would
Turn it back, you could blame me cause I would
But I promise I could make it, make it better this time
