

## Take By Force

Merauder

Govern the minds, the ones controlling their dreams  
Engage in war, object to reign supreme  
Leading the lives of many just to lay to waste  
Apprehensive ways in which to dominate

Capitalism  
Always first in the line  
Damnation  
Destroying mankind  
Monetary gains  
Politician`s course  
Government`s greed  
To take by force

Technology wasted minutemen do they play  
Political sanctions are now underway  
Descension strikes, stability not known  
Anti-christ of belief they shall behold

Capitalism  
Always first in the line  
Damnation  
Destroying mankind  
Monetary gains  
Politician`s course  
Government`s greed  
To take by force

What have we done, we`re fighting everybody`s war  
We`ll pay for them and defend yet they ignore  
Legislation intact they`ll send us on our way  
Religious beliefs are digging all our graves  
Screams of agony subconscious brutal dreams  
Death at his side, blood sheds into streams  
Trading lives for money, economical fall  
Live to fight the billion dollar war

Capitalism  
Always first in the line  
Damnation  
Destroying mankind  
Monetary gains  
Politician`s course  
Government`s greed  
To take by force
