## **Beyond This Night**

## Mercenary

The light reflects on my skin
I turn away to hide myself within
In black and grey
Eternally I hide myself away

Is death the only resolution? Escape from all the confusion

We try to find the light We try to find the reason To see beyond this night Alive

We paint the world in deceit
We realize we can no longer hide
Inside this dream
A fantasy of man's insanity

Is death the only solution?
Or can we fight the confusion?

Embrace your life And take your time

Nobody ever said that this would be easy Nobody ever said that this would be easy
