## My World is Ending

Mercenary

Take all that I believe in Give it a simple name Reveal all my secrets And drown me in the shame I will redefine The questions of the night And I will purify Forgiveness and the light

It's falling into place In clear perspective My deepest tragedy The world is ending So now you speak to me in perfect silence Don't take my soul away My world is ending

Don't ever speak to me To find your salvation I know it's hard to be And exist in culmination I'll take your soul away Destroy it and molest you And I will set you free Don't give your heart to me

It's falling into place In clear perspective My deepest tragedy The world is ending So now you speak to me in perfect silence Don't take my soul away My world is ending The world is ending My world descending
