

## In A Funny Way

Mercury Rev

On a summer day you can hear her call  
But in a funny way she reminds you of the fall

Through the fields an' the streams an' the lakes an' the trees  
And the grass and the logs run all my dogs  
And I am home again

In the summer autumn air  
You can see her smile  
But in a funny way she reminds you of a child

In the autumn air  
You feel her soul unfold  
And in a funny way you feel your own explode

Through the fields an' the streams an' the lakes an' the trees  
And the grass and the logs run all my dogs  
And I am home again

On a winter day  
You can hear her call  
But in a funny way when the snow begins to fall

On a winter day  
You can hear her call  
And in a funny way  
You love her even more

Through the fields an' the streams an' the lakes an' the trees  
And the grass and the logs run all my dogs  
And I am home again
