## **Secret For A Song**

## **Mercury Rev**

Dawn brought a wild light back into her tired eyes Like violets, opening her eyelids to the light Oh she was golden, I caught her still glowing I told you where we're going girl We're off for a dark country ride

I'll tell you a secret, I'll sell you a secret for a song Someday I'll tell you and take you back home where you belong

All the leaves are falling, two suns are slowly rising I'll take you where the morning star burns just for you My dark country bride

I'll tell you a secret, I'll sell you a secret for a song
I'll give you my soul babe, an one day you'll give me your own
