

Syringe Mouth

Mercury Rev

So you come dripping from the hive
Glittering as you arrive
High half as long and twice as bright
See you burning from both sides (from both sides) you come slipping
down the slide
Dragging me by your side
Phony colors in your eyes
Soul's obscene but I don't mind (I don't mind)
You're so obscene but I don't mind (don't mind)
Yea yea yea yea yea yea
you come whipping through my life
Flipping out like some old wife
Your syringe mouth is open wide
You go insane I go inside
