

You're My Queen

Mercury Rev

Siren with a song in your eye
Slashing through my ear like a beast
Seven times I leaped upon your shore
Every night I let you conquer me

You're my queen
You're my queen
You're my queen

Serpent with your blue planet eyes
Passing like a ship through my sleep
Seven times I kissed you on the mouth
Every night I let you conquer me

You're my queen
You're my queen
You're my queen
