

# You're My Queen

Mercury Rev

Siren with a song in your eye  
Slashing through my ear like a beast  
Seven times I leaped upon your shore  
Every night I let you conquer me

You're my queen  
You're my queen  
You're my queen

Serpent with your blue planet eyes  
Passing like a ship through my sleep  
Seven times I kissed you on the mouth  
Every night I let you conquer me

You're my queen  
You're my queen  
You're my queen
