

# Over

## Mercy Drive

Nothing, was real, i wanted  
Something, to feel, so jaded

Somehow, they breathe, i'm choking  
Seek out, release, from love that

Another day  
Another way  
Another message you've erased  
And whose to know where i belong  
And where i'll find you then

This part, of me, you've taken  
I ain't real, my dreams, awaken

Another day  
Another way  
Another message you've erased  
And whose to know where i belong  
And where i'll find you then

[Guitar Solo]

Another day  
Another way  
Another message you've erased  
And whose to know where i belong  
And where i'll find you then

Another day  
Another way  
Another message you've erased  
And whose to know where i belong  
And where i'll find you then!
