

## Last Rites

### Mercyful Fate

I'm surrounded by darkness, I'm dying in my bed  
I don't know if I'm going to survive  
I open my eyes, but it's so hard to see  
My Last Rites  
I don't believe in heaven, I don't believe in hell  
So save your god for someone else or save him for yourself  
In a flick of a second I think I saw a priest  
Listening to my breathing getting weaker all the time  
He's mumbling words I don't understand  
My Last Rites  
I don't believe in heaven, I don't believe in hell  
So save your god for someone else or save him for yourself  
Feeling colder, feeling low  
My blood still running, but running slow  
Oh no... I don't need no priest of yours... oh Christ  
I won't listen to another word from you  
Here I am dying and you act the fool  
I wish you'd come a little closer  
So I can reach your cross and end your prayer here  
I don't believe in heaven, I don't believe in hell  
So save your god for someone else or save him for yourself
