

On a Night of Full Moon

Mercyful Fate

Stay away
I am evil
Or you will die by tomorrow
Copulation with the body of a woman recently dead
My ceremonies with all the corpses
Finding some is where I find the ghosts in
It's desecration of souls in their holy lair
Magic circles drawn after midnight
Around graves to be opened
I use a wand and bodies rise
I ask the questions and I burn the remains
It's desecration of souls in their holy lair
On this sacrifice I've been searching on the night of full moon
Copulation with the body of a woman recently dead
My ceremonies with all the corpses
Finding some is where I find the ghosts in

It's desecration of souls in their holy lair
Oh this sacrifice I've been searching on the night of full moon

It's desecration of souls
