The Uninvited Guest

Mercyful Fate

There's a little old man...
Standing by my window
There's a little old man...
Hiding in the shadows
The univited guest,
Could never have been a friend
The univited guest,
He would never come back again

There's a little old man...
I'd say he looks like Misery
There's a little old man...
I could really use his company
The univited guest,
Could never have been a friend
The univited guest, H
e would never come back again

Come inside...
And stay for a little while
Come in from the cold and warm your heart

"You would not know of me...
We never met before
The name is Damian
And I used to live in this house"

The univited guest,
Could never have been a friend
The univited guest,
He would never come back again
There's a little old man...
I'd say he looks like Misery
There's a little old man...
I could really use his company

The univited guest,
Could never have been a friend
The univited guest,
He would never come back again
So I said farewell...
Until we meet again

You can come again my friend,
Any day you want
I later learned that he was never here
I later learned that he'd been dead a year
The univited
