

# Deeper

Meredith Andrews

I've been wading in shallow water  
You're the ocean I am after  
And I wanna go, oh, I wanna go with You  
Break the silence with Your whisper  
Take my hand and pull me under  
'Cause I wanna go, oh, I wanna go with You  
So

Take me deeper, take me deeper  
To where You are that I may find You  
Take me further, take me further  
Than where I've been  
I wanna be with You, be with You, oh

Settling for what my eyes see  
Help me believe, help me break free  
'Cause I wanna go, oh, I wanna go with You  
Yeah

Take me deeper, take me deeper  
To where You are that I may find You  
Take me further, take me further  
Than where I've been  
I wanna be with You, be with You, oh

Take me through the desert places  
For the chance to see Your face and  
Take me past the breaking waves  
Into the depth of Your embrace

Take me through the desert places  
For the chance to see Your face and  
Take me past the breaking waves  
Into the depth of Your embrace  
Your embrace

Take me deeper, take me deeper  
To where You are that I may find You  
Take me further, take me further  
Than where I've been, I wanna be with

Take me deeper, take me deeper  
To where You are that I may find You  
Take me further, take me further  
Than where I've been  
I wanna be with You, be with You  
I wanna be with You, be with You, oh
