

My Soul Sings

Meredith Andrews

From the void
Your words rang forth
The earth was formed
And life was born

Even then You knew our sin
Would tear us apart
We would break Your heart
But You would redeem

Now my soul sings
For my eyes see
Your beauty on display
For all of the world to see

Now my soul sings
Responding
To the wonder of Your love
At work inside of me

We were powerless
But You died for us
To show Your love
Your perfect love

Unsatisfied
Till we drank Your cup
It was enough, it's still enough
You're all we need

Now my soul sings
For my eyes see
Your beauty on display
For all the world to see

Now my soul sings
Responding
To the wonder of Your love
At work inside of me

Infinite God, intimate friend
Your love endures, it never ends
Then sings my soul
My soul must sing of all You are to me

Now my soul sings
For my eyes see
Your beauty on display
For all the world to see

Now my soul sings
Responding
To the wonder of Your love
At work inside of me
My soul sings
