

Never Move On

Meredith Andrews

What love is this that love should die?
Now I am His and He is mine
What a love came down to rescue me?
Where I was bound He set me free

I don't need a new truth
All I need is more of You

To the cross I will run for all my Savior has done
I will stay here, never move on
No other moment in time, so glorious, so divine
I will stay here, never move on

Held captive here in all of grace
Joy found in tears upon Your face
And all my shame just disappears
My guilt erased when I am here

I don't need a new truth
All I need is more of You

To the cross I will run for all my Savior has done
I will stay here, never move on
No other moment in time, so glorious so divine
I will stay here, never move on

Nothing in my hands I'll bring
Simply to Your cross I cling, I cling

To the cross I will run for all my Savior has done
I will stay here, never move on
No other moment in time, so glorious so divine
I will stay here, never move on

To the cross I will run for all my Savior has done
I will stay here, never move on
No other moment in time, so glorious so divine
I will stay here, never move on
