

What It Means To Love

Meredith Andrews

How could I forget Your face
When all it took was just one day?
For me to see it wasn't ordinary
I could never be the same

You took my hand and led the way
I didn't even know Your name
But something happened deep inside me
And I knew life would have to change

So how could I go back to life as usual?
And how could I return to who I once was?
I just want to take Your story to the world
'Cause You have shown me what it means to love, yeah

You healed the sick, You calmed the sea
But Your heart was for the least of these
You came to love the lost and broken
Your cross has set the captive free

So how could I go back to life as usual?
And how could I return to who I once was?
I just want to take Your story to the world
'Cause You have shown me what it means to love

Now I no longer live for myself
Your words are so clear
Help me live it loud enough
So they can hear

How could I go back to life as usual?
How could I return to who I once was?
I just want to take Your story to the world
'Cause You have shown me what it means to love, yes

How could I go back to life as usual?
How could I return to who I once was?
I just want to take Your story to the world
'Cause You have shown me what it means to love

Yes, You have shown me what it means to love
Yeah, what it means to love
