

# Back To Nowhere

Meredith Brooks

If you could have told me  
I wouldn't find my way back home  
Never would have closed the door I  
Never would have left the phone unplugged  
All night  
Waiting for the sunrise to take me out of here  
Back to nowhere

Wish you could have told me  
Who knows if I, could have heard  
Love don't make the reasons why  
Some people just don't find the words to convey  
The truth  
Of the passion that they're feeling  
Why do I keep falling back?  
Back to nowhere

Wishing you could hold me  
Like you used to in the dark  
Lay your body next to mine  
But does it anywhere, does your star  
Are you sure, you're fine  
But in case it's me you're missing  
You should know I'd gladly go  
Back to somewhere  
Back to anywhere  
I go  
With you
