

## Time Waits For No One

Meredith Brooks

Days go by, nothing stays the same  
As you and I move on, move on  
Tonight is tomorrow's memory  
Who knows where we both may be by dawn

Time goes on and on and on and  
Time waits for no one  
Don't let it pass us by  
Time waits for no one  
It goes on and on

Touch me now, baby, keep my kiss  
And show me that you're real  
We just have this time together  
Can't say whether we will ever be, you and me

Time goes on and on and on and  
Seize the moment, here between us  
Only stars above can see us now  
Time goes on and on and on and
