

# Watched You Fall

Meredith Brooks

You were my wild companion  
We were forever high, high, high  
We burned the night around us  
Sleeping could wait until we died  
You wear the scars of passion  
And since the crashing came  
You've broken every promise  
I walked away

I watched you fall  
I was blind to ya  
Was lying to ya  
Like everybody else who watched you fall  
Say they love you but they're laughing  
When you crawl

It's such a weary feeling  
When you've been stealing from yourself  
Wishing the world away  
Blaming someone else

No one can do this for you  
Straighten your head, fix your faith  
Take all the pain inside you  
Wash it away

Did I hear you, did I try  
Can I forgive myself for not standing by

I was blind to ya  
Was lying to you  
Said I love you but I'm laughing  
When you crawl  
Was lying to ya  
You fall  
I watched you fall  
I watched you
