

After I Sing All My Songs

Merle Haggard

When the show is over and everyone is gone
That's when this lonely feelin' comes along
Everybody loves me while the show is goin' on
But I need someone to love me after I sing all my songs

I smile and play the music while they just cheer me on
But this empty feelin' keeps on hangin' on
Lord, I wish I had somebody just to be my only one
I need someone to hold me after I sing all my songs

After I sing my songs and after the crowd is gone
I need someone to hold me after I sing all my songs

After I sing my songs after the crowd is gone
I need someone to hold me after I sing all my songs
