

After Loving You

Merle Haggard

Last night I held your body close to mine
And I felt the thrill of loving you for the first time
It's so good to know the feeling hasn't changed
After loving you I still feel the same.

The night is over and I still need you even more
I know I've finally found the one love I've been searching for
It's so good to know the feeling hasn't changed
After loving you I still feel the same.

The night is over and I still need you even more
I know I've finally found the one love I've been searching for
It's so good to know the feeling hasn't changed
After loving you I still feel the same.
After loving you I still feel the same...
